

## Criteria for authorisation to act as system operator

### 1. Introduction

- 1.1 In terms of section 10 (1) (c) of the South African Reserve Bank Act, 1989 (Act No. 90 of 1989 – the SARB Act), the South African Reserve Bank (the Bank) is required to perform such functions, implement such rules and procedures and, in general, take such steps as may be necessary to establish, conduct, monitor, regulate and supervise payment, clearing or settlement systems. Furthermore, the National Payment System Act, 1998 (Act No. 78 of 1998 – the NPS Act) provides for the management, administration, operation, regulation and supervision of payment, clearing and settlement systems in the Republic of South Africa, and to provide for related matters.
- 1.2 The National Payment System (NPS) encompasses the entire payment process from payer to beneficiary and includes settlement between banks. The process includes all the tools, systems, mechanisms, institutions, agreements, procedures, rules or laws applied or utilised to effect payment. The NPS enables the circulation of money, that is, it enables transacting parties to exchange value.
- 1.3 In terms of the NPS Act, the Bank may from time to time, after consultation with the payment system management body, issue directives to any person regarding a payment system or the application of the provisions of the NPS Act (section 12). Accordingly, the Directive for conduct within the National Payment System for System Operators, Directive No. 2 of 2007 is published in the *Government Gazette* Notice No. 1111 of 2007, dated 6 September 2007.
- 1.4 The NPS Act provides that the rules of the payment system management body must empower that body, currently being the Payments Association of South Africa (PASA), to authorise a person to act as a system operator (SO) in accordance with criteria recommended by PASA for approval by the Bank in terms of section 4(2) (c) (i) of the NPS Act.

- 1.5 The NPS Act defines a SO as a person, other than a designated settlement system operator, authorised in terms of section 4(2)(c) to provide services to any two or more persons in respect of payment instructions.
- 1.6 The services provided by a SO include the delivery to and/or receipt of payment instructions from a bank and/or a payment clearing house (PCH) system operator. The persons to whom services may be provided include, among others:
  - 1.6.1 banks;
  - 1.6.2 beneficiary service providers (persons who accept money or the proceeds of payment instructions, as a regular feature of their business, from multiple payers on behalf of a beneficiary);
  - 1.6.3 payer service providers (persons who accept money or the proceeds of payment instructions, as a regular feature of their business, from a payer to make payment on behalf of that payer to multiple beneficiaries);
  - 1.6.4 institutions exempted or excluded from the provisions of the Banks Act, 1990 (Act No. 94 of 1990); and
  - 1.6.5 clients of banks (any payers and beneficiaries).

## **2. Application for authorisation**

The process to be followed for authorisation as a SO is set out below.

Such application must be supported with the necessary documentary confirmation of compliance with the criteria contained in sections 3 and 4 for a SO. An application form is available on the PASA website at <http://authorisation.pasa.org.za>
- 2.2 PASA may, after having received an application from a person qualifying as a SO in terms of the criteria provided for in section 3 below, exempt such a person on good grounds from having to be authorised as a SO. Such exemption may be granted after PASA has consulted with the Bank and the applicant concerned. “Good grounds” for purpose of this section means any circumstance that PASA

and the Bank may deem applicable, after due consideration of such circumstances, to be of such a nature that the provision of the services by the SO would not introduce any unacceptable level of risk to the payment system or any of the persons to whom services may be provided.

2.3 PASA may also, after having provided a detailed motivation to and acquiring subsequent approval from the Bank, require any person who appears to be conducting the business of a system operator but had not been authorised to provide such services, to submit an application to be authorised to provide such services.

2.4 A SO will be authorised in respect of each service, such as EFT (electronic funds transfers), debit and credit card, etc. See the application form in this regard.
